Location - Delhi
Designation – Web Designer

EDUCATION

BACHELOR OF COMPUTER APPLICATION

DIPLOMA
Full Stack Web Developement

Secondary School
CBSE Board

SUMMARY

I have over 2 year of experience in web development, specializing in ReactJS, React-Redux, JavaScript, HTML, and CSS. Eager to contribute technical skills and a passion for innovation to a dynamic team.

RECENT PROJECTS

EPACKBOOK – Web App | A common CRM Software for Packers and Movers
July 2023 – Present

Technologies- ReactJS • Redux • Redux-Saga • Formik • MUI • EJS • NodeJS
Project overview - It enables users to effortlessly do follow-up, survey, generate quotations, manage bills, process orders, generate bilty, invoice. They can also oversee multiple branches and franchises and provide exceptional customer service.
Responsibilities:
- Employed state management techniques using React-Redux.
- Did API calls using React-Saga and API testing using Postman.
- Implemented comprehensive form validations using Formik.
- Worked on the flow of the application's functionalities.
- Designed Forms using MUI.
- Designed and developed dynamic templates that automatically render after form submissions using HTML, CSS and EJS.

G20 Virtual Helpdesk Delhi Police – Website
September 2023

Technologies- HTML • CSS • Bootstrap • Javascript
Project overview - Delhi Traffic Police has launched a virtual helpdesk to provide information on traffic updates and alternative routes during the G20 Summit in September.
Responsibilities:
- Did contribution with NIC and coordinated with the Police commisioner if the requirement was not clear.
- Coordinated with the special branch team if any changes were required for any screen and gave my input wherever required.

HUMAN RESOURCE MANAGEMENT SYSTEM
March 2023

Technologies- ReactJS • MUI • Postman • Axios
Responsibilities:
- Designed estimate invoice and billing system of the page.
- Worked on Postman for testing API's and integrated API's using Axios.
- Implemented changes in making pages reactive.

Objective: Driven by a passion for backend development, I am currently immersing myself in learning the MERN stack. With a firm belief in the transformative power of technology, particularly in the backend realm, I am committed to mastering the intricacies of MongoDB, Express.js, and Node.js. Eager to contribute to the ever-evolving landscape of backend technology, I am dedicated to creating robust and efficient solutions that drive innovation and enhance user experiences.
